## ▶ President's Report

Brian Jarrett

Well, it's been a busy few months. Your club has had great success over the past months with our Trick Dog Test in April and Rally/ Obedience Trial in May, both being received by judges and competitors alike, as very professionally organised and run.

There is a huge amount of work that goes into organising, prior to the day, and, then on the day. A very sincere thank you goes to all our volunteers involved. Well done.

Our members that competed in these events, also had some great success. Well done again.

To wrap up the first half of the year, we have our Agility Trial being held on Sunday 15th June. We would greatly appreciate any additional members that would like to volunteer to help out on the day. This is a great path for any newer members, who are interested in Agility, to gain an insight into what is involved. Let the team in the clubhouse know if you are interested in helping out. It will be a great day and you will learn a lot.

Hopefully, the weather holds off and doesn't adversely affect our training and trial sessions over the next few months.

# BLACKDOG

**NUTRITION**

Some dogs may be intolerant to Gluten which is found in wheat grains. Some foods replace all grains with other carbohydrates. We prefer to replace the wheat with healthy rice which contains important vitamins, minerals, fibre and other nutrients but no gluten so your furry family can 'eat with ease'.

Commonly used to aid in treating hip and joint pain in all dogs and especially as dogs get older. Keep 'em bouncing.

Probiotics are the 'good guy' bacteria that keep a healthy balance of microflora in the gut, which is essential for optimal health. Probiotics support the growth of the good guys and restrict growth of the bad guys. Stress, diet, illness, medications and genetics can lead to poor gut health, so we add natural Pre's and Pro's to curb these factors and help maintain better overall wellbeing.

We have carefully included Tasmanian Salmon Oil as a great source of omega 3 and 6 essential fatty acids, including DHA to support healthy skin and a shiny coat as well as sustain brain and cognitive function in all dogs.

Blackdog Nutrition keeps it natural. No artificial preservatives, colours or flavours. Just Naturally Good and loaded with great stuff for a long and healthy life. No BS - No Nasties.

**NO ARTIFICIAL FLAVOURS, COLOURS OR PRESERVATIVES**

**PUPPY NUTRITION AVAILABLE IN 1.5KG AND 6KG**

# ▶ Bearded Collie Obedience/Rally/Tricks Trial

On Sunday 4th May, 2025 The Bearded Collie Club of NSW hosted an Obedience/Rally/Tricks trial. It was open to Group 5 Working Dogs only. We thank the Judges for their participation, who were Darryl Turley for Obedience, Shanelle Corben for Rally and Loretta Rabbitt for Tricks. Also thanks to Andrea Munn for being our Canine Representative and Kitchen helper

Loretta Rabbitt with Judy Turley

Darryl Turley

We would sincerely like to thank Sutherland Shire Dog Training Club (SSDTC) for their generosity in allowing the “Beardies” to use the Clubhouse and equipment to hold this trial. We also had wonderful Stewards, (some of which are pictured) which we would also like to thank for giving up their day to help us, some of the Stewards were from SSDTC: Darren Lee, Dianne Cicchetti, Catherine Link, Judy Smith, and Margaret Taylor. Judge Sandra Gluck came along to help and from the Beardie Club, Lyn Smith. The trial was conducted at the conclusion of normal Obedience training at the Club. Considering the late start (10.30 am) it was a small trial, which we prefer as it makes for a friendly and laid-back event.

There was an excellent entry of Members from SSDTC, some of whom received qualifications. Lyn Coleman with Gypsy stole the show by coming First in every event entered.

You can't reward or punish emotions, you can only reward or punish behaviour

You can find more information on Ryan & Jen Tate at their website <https://www.tateanimals.com/>

"You cannot reward or punish your dog's emotional state."

Let's break down what this means -

The latest scientific research indicates you cannot reward or punish emotions, you can only reward or punish behaviour, or actions.

When a dog has developed a behavioural issue, it's crucially important before trying to fix the problem, that you fully understand what's driving your dog to act this way.

Here's a couple of commonly misinterpreted scenarios:

Case study 1 - A dog barks or growls at children.

Every time the dog does this, his owner yanks on the leash and reprimands the dog. The owner believes they are punishing the dog for being aggressive and with a few repetitions the dog will probably learn not to act in this way. Problem fixed? No — unfortunately, it's worse. The dog still hates kids, possibly even more, but he's now learned that he shouldn't show this with a bark or growl. The behaviour (vocalisation) has been punished and may cease, but the underlying emotional state (a hatred of children) will remain. This means we've now lost a very clear warning signal from the dog and he is also more likely to bite instead of bark or growl next time.

Case study 2 - A dog runs around the house frightened, pacing and panting every time there is a thunderstorm.

Owners in this situation often worry that if they give the dog any attention or rewards, they will reward him for being scared. However, if they give the dog a few treats for lying down on his bed, the dog may learn, 'If I go to my bed during a thunderstorm, I get treats and attention.' There is a bonus here: the dog may start to feel calmer as a result of the training and the act of lying down. When the dog feels good, the fear that was driving the behaviour of running around fades, which means you have helped your dog to feel less scared.

We can train dogs to hug each other, but we can't train them to love each other quite so easily.

# Thank you to all our Helpers

As I wrap up my second year as Trial Secretary for the Trick Dog, Obedience, and Rally competitions at the club, I want to take a moment to reflect on what a rewarding experience it has been. With a short break ahead to recharge and prepare for next year, I want to extend my deepest thanks to everyone who made these events possible.

This year marked our very first Trick Dog Test (Competition), and what an incredible debut it was! We had an outstanding 23 members step into the ring, each of you truly embraced the challenge, put on your "trick caps" and gave it your all. It was a joy to watch you and your dogs shine. A huge congratulations as well to everyone who took part in the Obedience & Rally competition. Your hard work, dedication, and achievements made us all proud. Well done to everyone.

Both the Trick Dog and Obedience & Rally competitions brought their own share of unexpected (and at times unwanted!) challenges, but the overwhelmingly positive feedback we received from both events speaks volumes.

Other clubs will look to what we've accomplished with admiration, and it's all thanks to the spirit and teamwork of our amazing "village". Whether your contribution was large or small, your help and support played a vital role in the success of our Trick Dog and Obedience & Rally competitions. I truly can't thank you enough.

A very special thank you to our generous sponsors of our competitions:

April: Trick Dog - Kong Company & Dog Sport Equipment

May: Obedience & Rally - Clisdells Strata Management

Please understand that the enforcing of this policy is for the safety of our trainers, members and their dogs. Removal of the muzzle at a future date to be decided by senior instructor(s) assessment on the aggressive dog.
